National Planning Conference

May 9, 2006
San Francisco, California

by
Peter Rabbon, Immediate Past President
NAFSMA

DISCLAIMER

- This is an educational presentation based on my past experience with NAFSMA. I am not representing or acting for NAFSMA in any way.
- Notwithstanding my employment with the Corps my presentation and comments may not represent the official policies or positions of the Corps.

National Association of Flood & Stormwater Management Agencies (NAFSMA)

is an organization of public agencies whose function is the protection of lives, property and economic activity from the adverse impacts of storm and flood waters. The mission of the Association is to advocate public policy, encourage technologies and conduct education programs which facilitate and enhance the achievement of the public service functions of its members.

(State and Local Governments,
as well as Special Districts are members)

National Association of Flood & Stormwater Management Agencies (NAFSMA)

NONFEDERAL PARTNER

Focus on Legislative,
Regulatory & Legal Activities
at the Federal Level

Key NAFSMA Flood Management Positions-Authorization & Appropriations Issues

- NAFSMA Encourages Use of All Project Alternatives – structural to nonstructural solutions and programs as needed
- NAFSMA Supports Multi-Objective efforts – to include flood management, river restoration, environmental preservation and enhancements and recreation.

Key NAFSMA Flood Management Positions-Authorization & Appropriations Issues

- NAFSMA Recommends Review and Revision of current NED policies to encourage more environmentally sensitive, multi-objective projects
- NAFSMA supports policies and programs allowing for local implementation of federal projects and reimbursement agreements such as Section 211.

Key NAFSMA Flood Management Positions-Authorization & Appropriations Issues

- Encourages Corps to develop guidance and policies for deauthorizing all or portions of projects exceeding their useful life or where nonstructural alternatives exist providing same benefits
- Encourages Corps to make personnel available to participate early and throughout the planning, design and permitting phases of new civil works projects.
- Recommends Elimination of PED agreements

Key NAFSMA Flood Management Positions-Authorization & Appropriations Issues

- Supports non-federal sponsors receiving full credit for all legitimate project expenses, similar to credit received by the Corps.
- Supports non-federal sponsors receiving full credit for CERCLA activities needed for project.

Key NAFSMA Flood Management Positions – O&M

- Environmental permitting and mitigation requirements must be completed and issued for long-term O&M
- Supports changes to PCA to limit liability on local sponsor for OMRR&R to project design life.
- Supports review of fed-partnered flood management projects to determine what programs & funds are needed to repair, replace or rehabilitate the aging infrastructure.

Key NAFSMA Flood Management Positions – Permitting

- Supports reasonable guidelines & standards that recognize regional differences
- Supports inclusion of needed federal permitting in O&M manual
- Encourages Corps to better coordinate with all local, state and federal agencies to streamline permitting
- Supports adequate funding for regulatory permitting

Challenges of Integrated Water Resources Management and Collaboration

DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS

CIVIL WORKS
STRATEGIC PLAN
Fiscal Year 2004 – Fiscal Year 2009

March 2004

Successes

- Collaborative approach to FEMA Map Mod
- Integrating tribal coordination
- Post authorization for Folsom Dam Mods
- Interagency Flood Mitigation Pgrm

Key Areas for Success

- Project
- Organization
- Personal

Project

- Need
  - Funding problem
  - Multiple stakeholders/issues
  - Crisis

Organization

- Time
- Funding
- Programmatic Structure
- Credibility

Personal

- Trust
- Awareness
- Understanding
- Open and Honest

NAFSMA 2006 Annual Meeting

San Antonio, TX
September 6-8, 2006
